MSWBKTE1231S

WIRELESS MOUSE

TE-1231S

2.4 GHz and Bluetooth 5.0 · 4 buttons · up to 1600 DPI

THREE CONNECTIONS
2.4 GHz receiver + 2 Bluetooth 5.0 channels

It keeps three connections at once: a 2.4 GHz USB receiver and two Bluetooth 5.0 channels. It can stay paired at the same time to the desktop PC, the laptop and the tablet. It runs on one AA battery and changes resolution with a button.

REFERENCE IMAGE

CONNECTIONS	RESOLUTION	SCAN RATE	BATTERY
3	1600 DPI	3000 FPS	1 AA

WHAT IT SOLVES

One mouse for every device at the desk

Three connections

A 2.4 GHz USB receiver and two Bluetooth 5.0 channels, paired at the same time to three devices.

DPI button

Switches between 800, 1200 and 1600 DPI with one button, without opening system settings.

3000 FPS scan rate

The sensor reads the surface three thousand times per second, so the cursor keeps up with fast movements.

One AA battery

No charging and no leaving it plugged in: swap the battery and keep working. Battery not included.

TEROS

PART NUMBER
MSWBKTE1231S

The three connections: the 2.4 GHz receiver plugs into a USB port and works as soon as it is connected, even on devices without Bluetooth. The two Bluetooth 5.0 channels pair without taking any port, which is what slim laptops and tablets need.

WHERE IT DELIVERS

Built for people who work on more than one screen a day

WORKING ACROSS DEVICES

The office PC and your own laptop

It stays paired to both at the same time, so there is no need to disconnect and pair again every time you switch device.

- 2.4 GHz + 2 × BT 5.0
- Windows 8, 10 and 11
- USB receiver included

LAPTOPS AND TABLETS

Without taking a port

On slim devices, where every USB port counts, Bluetooth leaves the ports free for the drive, the projector or the memory stick.

- Bluetooth 5.0
- Two stored channels
- No receiver to lose

EVERYDAY USE

Three million clicks

That is the rated button durability. The wheel counts as one more button and the DPI switch is at hand.

- 4 buttons, wheel included
- 800 to 1600 DPI
- 12-month warranty
