CURVED GAMING MONITOR

TE-2767G

27" QHD curved 1500R · 2560 x 1440 at 180 Hz · 1 ms · 5000:1 contrast

5000:1 CONTRAST
One of the highest-contrast panels in the LCD line

27-inch curved monitor with a 2560 x 1440 QHD VA panel and 5000:1 contrast, 180 Hz over DisplayPort and 1 ms response. Certified AMD FreeSync Premium, HDR and a metal stand with height adjustment, ±20° swivel and 90° pivot.

REFERENCE IMAGE

CONTRAST	RESOLUTION	REFRESH RATE	RESPONSE
5000:1	2560 x 1440	180 Hz	1 ms

WHAT IT SOLVES

QHD definition with the contrast of a VA panel

5000:1 contrast
Five times that of a typical IPS panel: blacks look black, not dark grey.

QHD at 180 Hz
2560 x 1440 at 180 Hz over DisplayPort: more definition than Full HD without losing speed.

Height, swivel and pivot
Metal stand with height adjustment, ±20° swivel and 90° pivot to turn it vertical.

FreeSync Premium
A certification that requires high refresh and low framerate compensation, not just basic sync.

TEROS

PART NUMBER
MON27CTE2767G

5000:1 contrast: the ratio between the brightest white and the darkest black the screen can show. An IPS panel sits around 1000:1, and there black looks grey; this one multiplies that figure by five. The difference is obvious in dark scenes, in night-time games and when watching films with the lights off.

WHERE IT DELIVERS

Built for gaming and watching content in QHD

DARK SETTINGS

See what happens in the shadows

In night-time or horror games, a 5000:1 contrast reveals detail where a lower-contrast panel only shows grey.

- 5000:1 contrast
- 300 nits with HDR
- 1500R curve

FULL ERGONOMICS

It adapts to each person

Height, tilt, swivel and 90° pivot: the same desk serves people of different heights and the screen can go vertical.

- Height adjustment
- ±20° swivel
- 90° pivot

CONNECTIVITY SORTED

Four video inputs

Two HDMI 2.1 and two DisplayPort 1.4 to keep a PC and a console connected at once, with the DisplayPort cable in the box.

- 2 HDMI 2.1 · 2 DP 1.4
- DisplayPort cable included
- VESA 100 and Kensington
