27" Fast VA	4000:1	280 Hz	1.07 B

WHAT IT SOLVES

Speed, 10-bit colour and gaming aids

280 Hz with 1 ms

Over DisplayPort 1.4; over HDMI 2.1 it reaches 240 Hz, also far above the usual.

10-bit panel

1.07 billion colours with 119% of sRGB and 90% of DCI-P3: speed without sacrificing colour.

Black stabilizer

It brightens the dark areas without touching the rest: what hides in the shadows stops hiding.

Height, swivel and pivot

A stand with all three adjustments: it rises, swivels 20° each way and rotates 90° clockwise.

TEROS

PART NUMBER
MONFVCTE2774G

What the stabilizer does: the black stabilizer brightens only the dark areas of the image and leaves the rest untouched. Raising the overall brightness would wash out the whole scene; this feature lifts the shadow where it is needed. In a shooter, that means seeing someone crouched in a dark corridor instead of finding them when they have already fired.

WHERE IT DELIVERS

Built for the competitive player who also cares about colour

COMPETITIVE GAMING

Two hundred and eighty frames

280 Hz over DisplayPort with 1 ms MPRT, FreeSync Premium, a virtual crosshair, black stabilizer and FPS and RTS modes.

- 280 Hz over DP · 240 over HDMI
- Virtual crosshair · FPS and RTS
- Black stabilizer

IMAGE AND CONTENT

Ten bits on a fast panel

1.07 billion colours with 119% of sRGB, 90% of DCI-P3 and 4000:1 contrast: uncommon in a 280 Hz monitor.

- 10-bit · 1.07 B colours
- 119% sRGB · 90% DCI-P3
- 4000:1 contrast · HDR10

SETUP AND ERGONOMICS

Full stand and rear RGB

Height, tilt, 20° swivel each way and 90° pivot, with rear RGB lighting and VESA 100 mounting.

- Height, ±20° swivel and 90° pivot
- Rear RGB lighting
- VESA 100 · 6-button OSD
