105 Spanish-layout keys · rainbow backlighting · FN functions

RAINBOW BACKLIGHTING
A Spanish-layout gaming keyboard, ready to plug in

105-key Spanish-layout gaming keyboard with rainbow backlighting and media functions on the F1 to F12 row, reached with the FN key. Membrane architecture, USB 2.0 connection and a 1.5 metre cable. Works from Windows 7 to Windows 11.

WHAT IT SOLVES

Everything you ask of an entry-level gaming keyboard

Rainbow backlighting
A colour gradient under the keys that also shows the legends when playing in the dark.

105 Spanish-layout keys
Full format with numeric keypad: the same keyboard serves for gaming and for work.

FN functions
The F1 to F12 row controls volume and playback when combined with the FN key, with no software to install.

Direct USB 2.0
Plug in and it works on Windows 7, 8, 10 and 11, with a 1.5 metre cable and nothing to install.

Membrane or mechanical: a membrane keyboard uses one sheet under all the keys: the keystroke is softer and much quieter, and the price is lower. A mechanical one gives a marked response and lasts longer, but it is noisy. For those building their first setup or sharing a room, membrane is usually the sensible choice.

WHERE IT DELIVERS

Built for the first setup and for mixed use

FIRST GAMING KEYBOARD

Entering the segment without overpaying

Lighting, full format and media functions: what you expect from a gaming keyboard, at the entry point of the category.

- Rainbow backlighting
- 105 Spanish-layout keys
- FN media functions

SHARED SPACES

Quiet typing

Membrane does not click like a mechanical keyboard, so it works in a shared bedroom or next to someone on a video call.

- Membrane architecture
- 1.5 m cable
- USB 2.0

GAMING AND WORK

One keyboard for both

Full Spanish layout for writing by day, and lighting and media shortcuts for gaming at night.

- Windows 7 to 11
- Numeric keypad
- 12-month warranty
