SMARTPHONE GIMBAL STABILISER

TE-7056N

Three axes · 360° AI tracking · 1800 mAh power bank

ARTIFICIAL INTELLIGENCE TRACKING
The camera follows you on its own, through 360°

Three-axis stabiliser with automatic AI tracking: it turns on its own to keep you in frame. It switches between portrait and landscape, has an Inception mode that needs no app, and also works as an 1800 mAh power bank for the phone.

RECORD ON THE MOVE WITHOUT A SHAKY IMAGE

REFERENCE IMAGE

AXES	TRACKING	PAN	BATTERY
3	AI over 360°	360°	1800 mAh

WHAT IT SOLVES

A steady image even when you are not

3-axis stabilisation

Corrects tilt, roll and pan at the same time, so the video stays smooth even while walking.

AI tracking

Detects the person and turns the phone to keep them centred, with nobody holding the device.

Inception mode

Continuous 360° rotation for the spiral shot, started from the handle itself without opening the app.

Also a power bank

1800 mAh available to charge the phone while recording, which is when it uses the most battery.

TEROS

PART NUMBER
ACCTE7056N

The three axes: a three-axis gimbal corrects separately the three movements that ruin a video: tilting up and down, rolling side to side and turning horizontally. This one covers 330° of tilt, 160° of roll and 360° of pan, so the shot stays level while you walk.

WHERE IT DELIVERS

Built to record content without a film crew

SOCIAL MEDIA CONTENT

Portrait or landscape in one move

Switch from portrait for social media to landscape for video without removing the phone or rebalancing the arm.

- Portrait and landscape switch
- TEROS PRO app
- Control panel on the handle

RECORDING WITHOUT A CAMERA OPERATOR

The device follows you

For one-person classes, demonstrations or interviews, AI tracking keeps the framing while you move.

- Automatic 360° tracking
- Ultra-wide angle
- No one holding the device

LONG DAYS

Battery for both

Recording video drains the phone fast. The gimbal's 1800 mAh keeps it running without charging a separate battery.

- 1800 mAh power bank
- 5 V input
- 12-month warranty

Stabilisation, features and power

STABILISATION

Axes	3
Tilt angle	330°
Roll angle	160°
Pan angle	360°

FEATURES

Tracking	Artificial intelligence · automatic over 360°
Inception mode	Yes · no app needed
Orientation	Switches between portrait and landscape
Control	Panel on the handle

POWER

External battery	1800 mAh · power bank function
Input voltage	5 V
Operating voltage	3.4 – 4.2 V

APP AND MEASUREMENTS

App	TEROS PRO · Google Play and App Store
Dimensions	11.20 x 0.70 x 28.90 cm
Colour	Black
Packaging	Box

IDENTIFICATION AND WARRANTY

Brand / model	TEROS · TE-7056N
Deltron code	ACCTE7056N
Warranty	12 months * TEROS products only

WARRANTY
12 months
* TEROS products only · new product (NV)

STABILISATION
3 AXES · 360°
Tilt 330° · roll 160° · pan 360°
