ACCTE7134N

7-IN-1 USB-C HUB

TE-7134N

HDMI 4K at 60 Hz · 2 USB 3.0 · gigabit RJ45 · SD/TF reader · 100 W PD

HDMI 4K AT 60 HZ
Twice as smooth as hubs that only manage 30 Hz

Seven ports from a single USB-C connector: HDMI 2.0 with 4K at 60 Hz, two 5 Gbps USB 3.0 ports, gigabit RJ45 network, SD and microSD reader, and a PD 3.0 charging input of up to 100 W. Aluminium housing with a status LED.

REFERENCE IMAGE

PORTS	VIDEO	NETWORK	PD CHARGING
7	4K at 60 Hz	1 Gbps	100 W

WHAT IT SOLVES

One connector that becomes seven

HDMI 4K at 60 Hz
HDMI 2.0 output at 3840 x 2160 with 60 frames per second, also compatible with older displays.

Seven ports
HDMI, two USB 3.0, RJ45, SD and microSD reader, and a charging input, all from a single USB-C.

Gigabit wired network
10/100/1000 Mbps RJ45: brings the network port back to laptops that no longer have one.

100 W PD charging
Accepts 20 V and 5 A input, so the laptop keeps charging while the hub is in use.

TEROS

PART NUMBER
ACCTE7134N

4K at 60 Hz: many USB-C adapters deliver 4K but only at 30 Hz, and at that rate the mouse pointer jumps and the desktop feels uncomfortable. This one reaches 60 Hz, which is what makes a 4K monitor truly usable for work, not just for playing video.

WHERE IT DELIVERS

Built for laptops that ran out of ports

SLIM LAPTOPS

Gives back what the laptop lost

Today's laptops come with two or three USB-C ports and nothing else. This hub brings back HDMI, the network port, classic USB and the card reader.

- 2 x USB 3.0 · 5 Gbps
- Gigabit RJ45
- SD and microSD reader

ROOMS AND PRESENTATIONS

Projector and charging at once

Connect the projector or TV over HDMI and the laptop keeps charging through the same hub, without using another port.

- HDMI 2.0 · 4K at 60 Hz
- 100 W PD 3.0
- Works with older displays

PHOTO AND VIDEO

Offload cards without an adapter

Built-in SD 3.0 and microSD reader, with an LED that warns when a transfer is in progress so the card is not pulled mid-copy.

- SD 3.0 / TF 3.0 reader
- Status LED
- Aluminium housing

DATASHEET · USB-C HUB

Ports, power and build

PORTS

Connection interface	1 x USB Type-C
Video output	1 x HDMI 2.0 · 3840 x 2160 at 60 Hz
USB	2 x USB 3.0 · 5 Gbps
Network	1 x RJ45 · 10/100/1000 Mbps
Card reader	SD 3.0 and TF 3.0 (microSD)
Charging input	1 x USB-C with PD 3.0
Display compatibility	TVs and projectors · backward compatible

POWER

Power Delivery	PD 3.0 up to 100 W · 20 V / 5 A
Total USB current	2.5 A across the two USB 3.0 ports

BUILD AND INDICATORS

Housing	Aluminium
Status LED	Green: connected · yellow: transfer in progress

IDENTIFICATION AND WARRANTY

Brand / model	TEROS · TE-7134N
Deltron code	ACCTE7134N
Warranty	12 months * TEROS products only

WARRANTY
12 months
* TEROS products only · new product (NV)
