WHAT IT SOLVES

## Order and quick access in the same backpack

### Flap pocket
A zip covered by a flap: it protects what is inside and keeps what you use all the time within reach.

### Laptop, tablet and papers
The main compartment holds the 15.6" laptop, a separate tablet sleeve and room for documents.

### Hidden rear pocket
It sits against your back: phone and passport stay out of reach on public transport.

### Breathable back
Mesh where it rests on you, so your back does not stick to the load on hot days.

**The flap pocket:** the front pocket has a zip and, above it, a flap that covers it. That cover keeps light rain out of the zip and hides the opening from other people's hands, without losing what makes a front pocket useful: getting the keys or the charger out without opening the backpack.

WHERE IT DELIVERS
