WEBCAM

TE-9072

2592 × 1944 at 30 fps · 93.7° lens · omnidirectional microphone

2592 × 1944 RESOLUTION
More detail than a Full HD webcam, with a tripod included

Webcam at 2592 × 1944 and 30 frames per second, with a 93.7-degree lens and a built-in omnidirectional microphone. It connects over USB 2.0, works with the usual video-conferencing apps and includes a tripod.

MORE DETAIL AND MORE FIELD IN THE VIDEO CALL

REFERENCE IMAGE

RESOLUTION	FRAMES	ANGLE	INCLUDES
2592 × 1944	30 fps	93.7°	Tripod

WHAT IT SOLVES

Being seen and heard properly

2592 × 1944 pixels
Five megapixels of capture, above the Full HD webcams that dominate the segment.

93.7° lens
A wide angle: more than one person fits in frame, or the whole desk behind is visible.

Omnidirectional microphone
Picks up sound from any direction, so you do not have to speak straight at it to be heard.

Tripod included
As well as resting on the monitor, it mounts on a tripod to place it on the desk or at another height.

TEROS

PART NUMBER
MMTE9072

The omnidirectional microphone: a directional microphone only picks up well whoever speaks straight at it; an omnidirectional one collects sound equally from all sides. In a meeting with two or three people in the same room, that is what stops only the person sitting in front of the screen being heard.

WHERE IT DELIVERS

Built for meetings, classes and recordings

WORK VIDEO CALLS

Better than the laptop camera

Built-in cameras tend to stay at 720p with a narrow angle. This one raises the resolution and widens the framing.

- 2592 × 1944 at 30 fps
- USB 2.0 · nothing to install
- Windows 7 to 11

SMALL MEETING ROOMS

Several people in the same frame

The 93.7° lens covers two or three people sitting together, and the omnidirectional microphone picks them all up.

- 93.7° angle
- Omnidirectional microphone
- 1.5 m cable

CLASSES AND RECORDING

Placing it wherever it is needed

The included tripod lets you bring it down to the desk to show a document or an object, without depending on the edge of the monitor.

- Tripod included
- MP4 video
- JPG photos
